

PRESS RELEASE
relating to the Fox 6 report of March 27, 2019

Living Word Lutheran Child Development Center has provided a quality Lutheran Christian childcare and preschool option for 16 years. We are dedicated to building a Christian foundation for families with young children to grow in faith, knowledge, individuality, and socialization. Parents of 125 students have and continue to entrust us with their most precious possession, their child(ren). They choose our center because of the safe, loving, and caring culture that permeates our building. We enjoy a strong relationship with the West Bend School District, serving as a site for the district's community based 4K program.

It is regrettable that Fox 6 News and investigative reporter Amanda St. Hilaire would resort to "ambush journalism", hidden cameras, and the opinion of a disgruntled former employee to push a narrative that our center is somehow not qualified to serve students due to a supposed loophole in State law. Our center has and always will operate within the bounds of all applicable State laws including Wisconsin §48.65(2)(b).

Living Word Lutheran Child Development Center remains committed to providing a safe, loving, and caring environment for our students. We value the partnership we have with our parents and families and will continue to remain open and transparent. Parents are always welcome to call the administrator or their child's teacher at the center during the day if they have any questions or concerns.
